

(XII)

Join these two edges using cross stitching. Do the same for the opposite ones

4a

(X)

Join these split edges using cross stitching
Do the same for the opposite ones

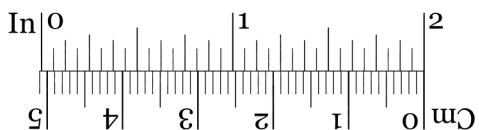

(XIV)

Join this edge with its opposite using cross stitching

Part 4 is the back of the penguin and needs to be dyed black

This shape should

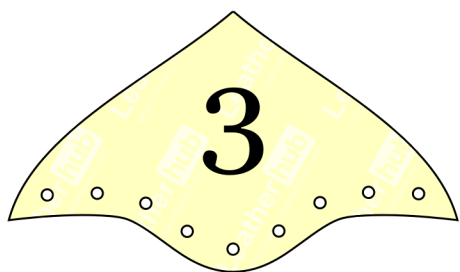

align properly

4b

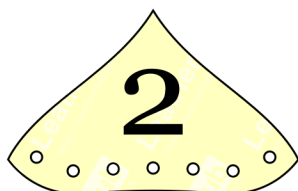

(XI)
Join these split edges
using cross stitching
Do the same for the
opposite ones

(XIII)
Join these two edges using
cross stitching. Do the same
for the opposite ones

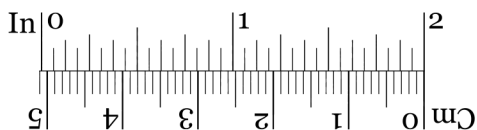

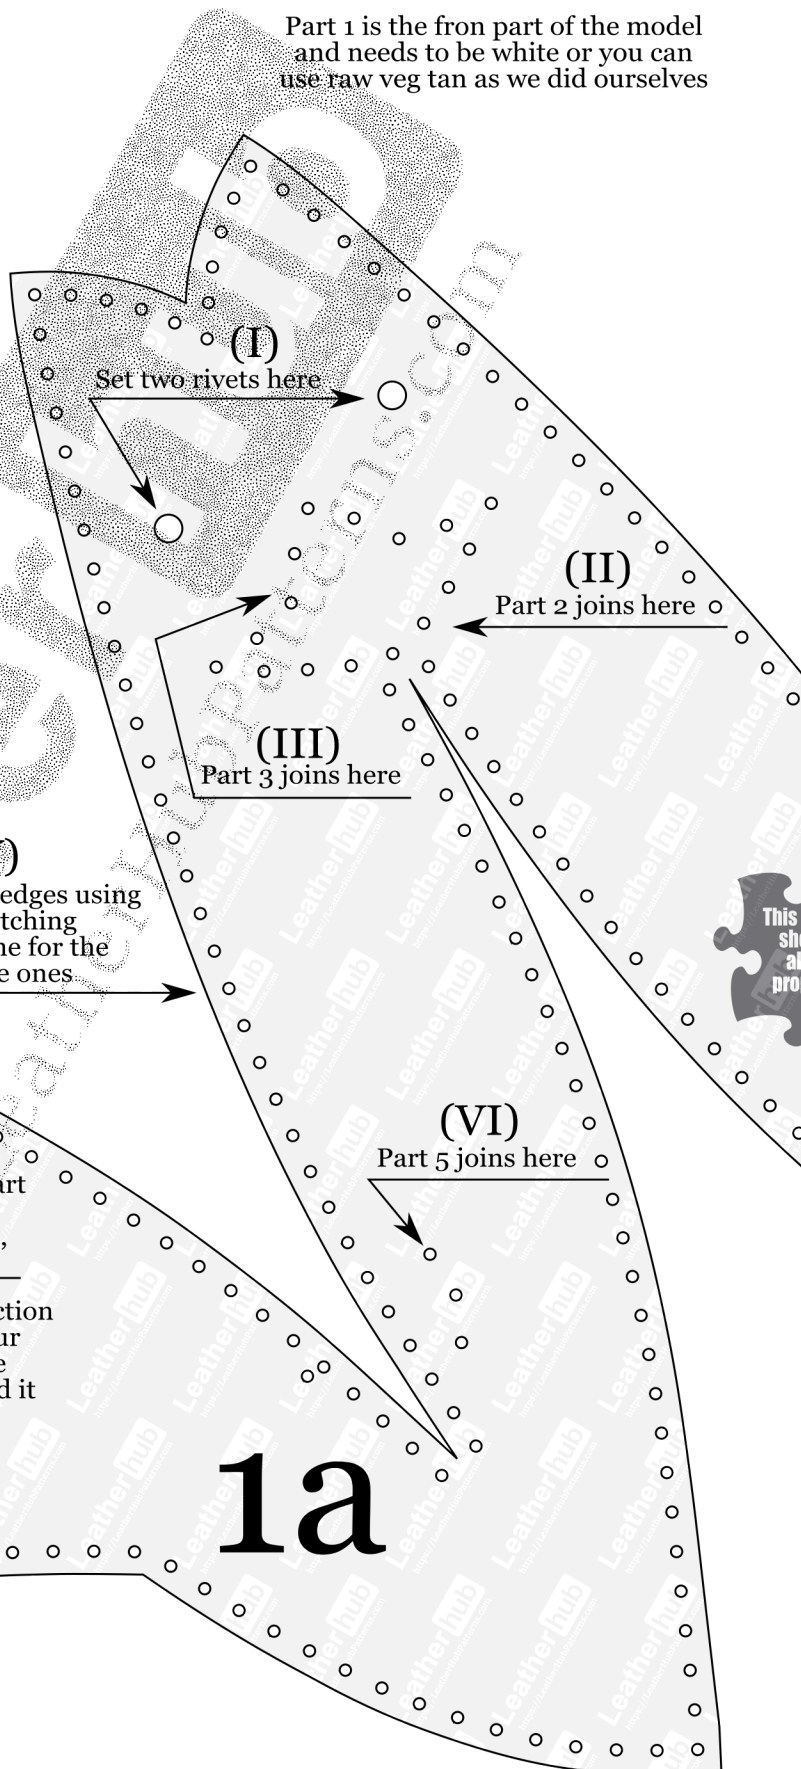

These two parts
form the beak

Part 1 is the front part of the model
and needs to be white or you can
use raw veg tan as we did ourselves

1b

(IX)

Part 4 overlaps here

(VII)

Part 6 joins here

(IV)

Join this edge with the opposite one using cross stitching

You can use a 6 mm hole punch to make it easier on cutting these curves

These two parts are the feet
