The diagram shows a corner bracket with three horizontal dimensions. The first dimension, 4" / 10.16 cm, is the width of the bracket's base. The second dimension, 4-1/2" / 11.43 cm, is the total width from the vertical face to the right edge. The third dimension, 1-1/2" / 3.81 cm, is the width of the vertical face itself. Dashed lines indicate the alignment of these measurements.
