

Everyday Tote Bag

INSTRUCTION

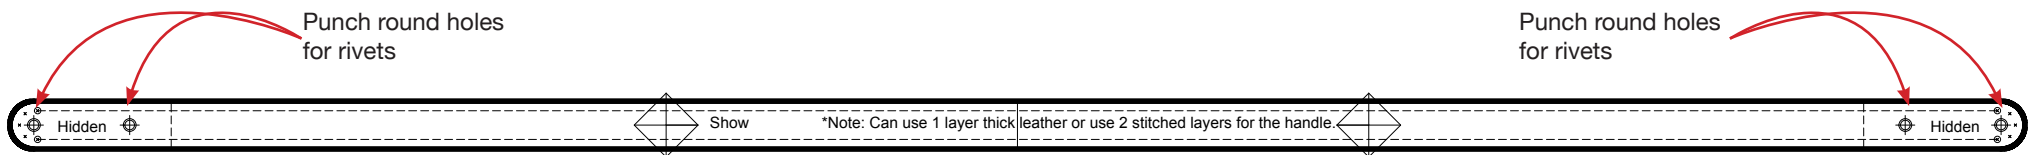

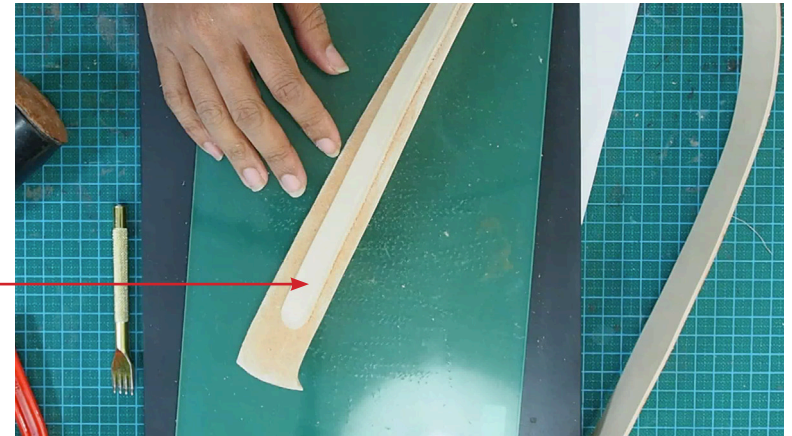

Page 1 of 4

1. STRAP: Punch round holes as indicated in the pattern

Note:

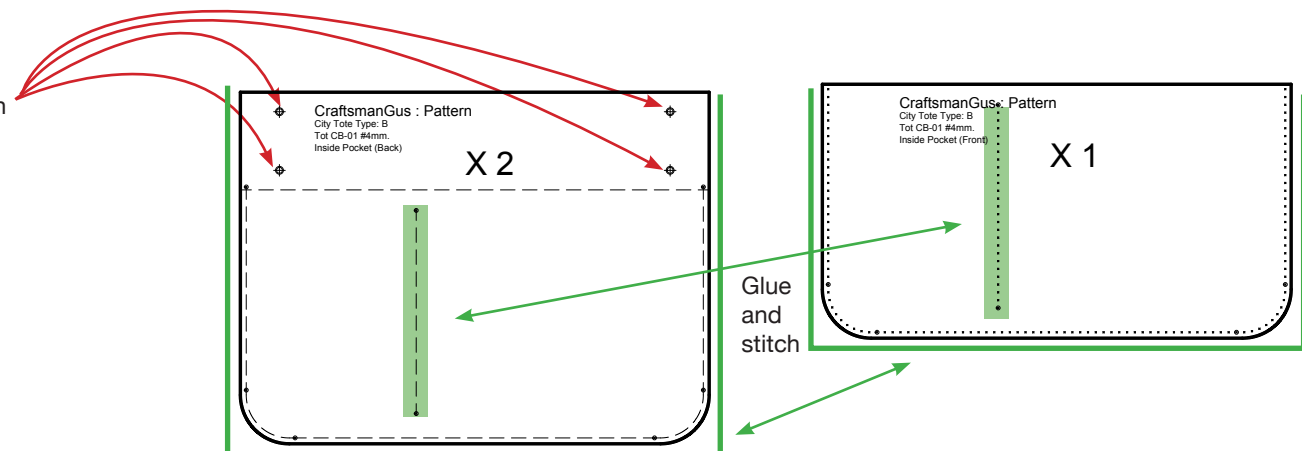

- You can make the strap with 1 layer of thick leather or you can do 2 layers and stitch
- the size of the holes should match the size of the rivets

1. cut the top piece of the strap the exact size and cut the bottom piece slightly bigger.
2. Stitch first then trim out the excess

2. INSIDE POCKET:

1. Glue and stitch together
2. Punch round holes as indicated in the pattern
